

DA150x Degree project in Computer Science (dkex21)

Important dates

19/01/2021	Introductory session for students (led by Pawel Herman), kl.10-12, Zoom
22/01/2021	Deadline for students to express their project preferences (handled by Jörg Conradt)
26/01/2021	Allocation of projects to student groups (published in Canvas by Jörg Conradt)
28/01-4/02/2021	Introductory meetings held by each supervisors to discuss projects within the allocated student groups and provide general guidelines concerning a project specification
5/02/2021	Lecture "how to write a project plan" (held by Pawel), kl.13-15, Zoom
12/02/2021	Hand-in of project specification by students (submission through Canvas)
25-29/02/2021	Meetings held by supervisors to provide feedback to their students on the literature studies and project background description
23/03/2021	Session on report writing for students (held by Susanna Lyne), kl.10-12, Zoom
30,31/03+1/04/2021	Half-time seminar on scientific writing and peer reviews, held online by Susanna Lyne, Jamie Rinder och Jane Bottomley från KTH Språk och Kommunikation. Each student group will be assigned to one out of available four-hour timeslots (specific assignments and details for student groups will be announced later)
5-14/04/2021	Meetings held by supervisors to monitor progress, discuss results and preliminary reports produced by their students
26,27,30/04/2021	Seminar (online) with group work involving peer reviews focused on presenting, reflecting and discussing results in the report (Results and Discussion chapters). Teacher allocation and group setup are analogous to that in half-time seminars
7/05/2021	Students send their report drafts and popular science summaries to their supervisors before a meeting session in the middle of May (internal communication between students and their supervisors)
10-14/05/2021	Meetings held by supervisors for a final round of comments on their students' reports
10/05/2021	Session on oral presentation techniques (Linda Söderlindh), kl.10-12, Zoom
21/05/2021	Hand-in of students' reports and popular science summaries for peer feedback at the conference (submission through Canvas)
26/05/2021	Hand-in of students' peer reviews (submission through Canvas)

31/05/2021
1,2/06/2021

Student conference (supervisors act as chairmen and reviewers)

9/06/2021

Hand-in of students' final reports subject to assessment (submission through Canvas).

18/06/2021

Deadline for supervisors to grade students' work

- supervisors grade (P/F) not only reports of their own students but also a set of reports produced by other allocated students
- supervisors also examine the peer reviews of the work of their own students

26/06/2021

Deadline to make final assessments including presentations and approval of opponent's performance (all potential discrepancies in grading should be resolved at this stage by the examiner, Pawel Herman)
